NORM-ATTAINING VOLterra-TYPE OPERATORS ON SOME ANALYTIC FUNCTION SPACES

M. MAHBOOBI¹, SH. NAJAFZADEH² AND A. EBADIAN³

Abstract. In this paper, we consider a Volterra-type operator
   \[ J_f(h)(z) = \int_0^z h(\xi)f'(\xi)d\xi \quad (h \in H(D)) \]
induced by a holomorphic map \( f \). We study the norm of this operator on some analytic function spaces.
