

Inca nu stii ce sa-ti alegi?

Avem o propunere....

Universitatea din Oradea

Facultatea de Stiinte

BIOLOGIE

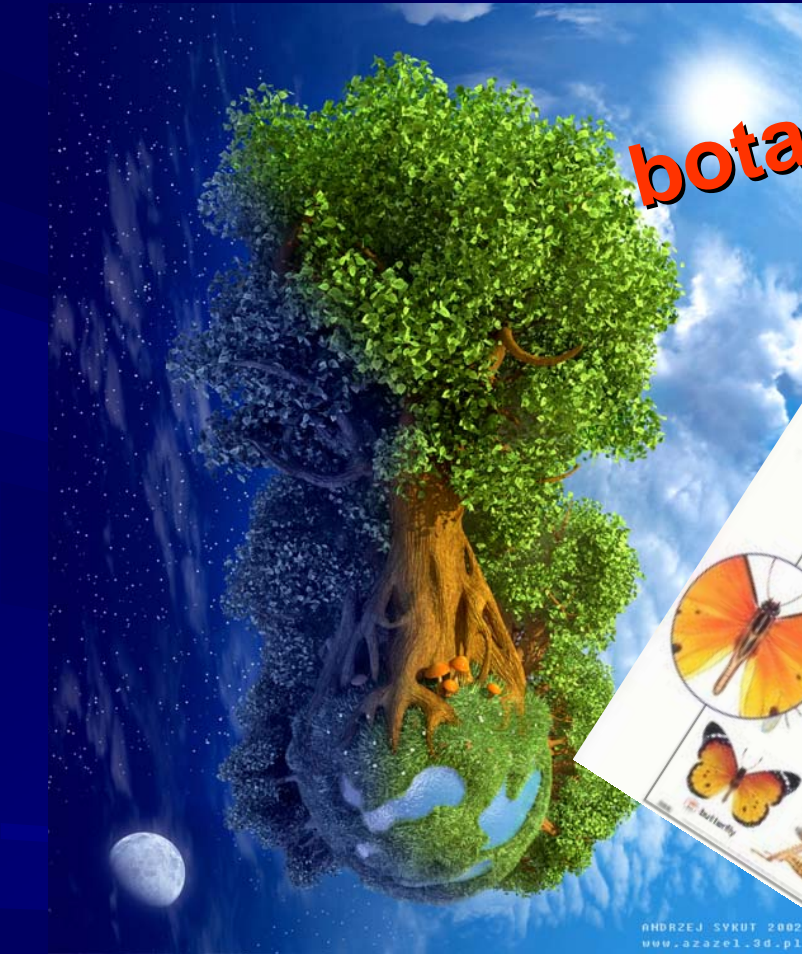

...si de ce?...

Despre ce poti invata la noi?

...numai cateva exemple....

botanica

zoologie

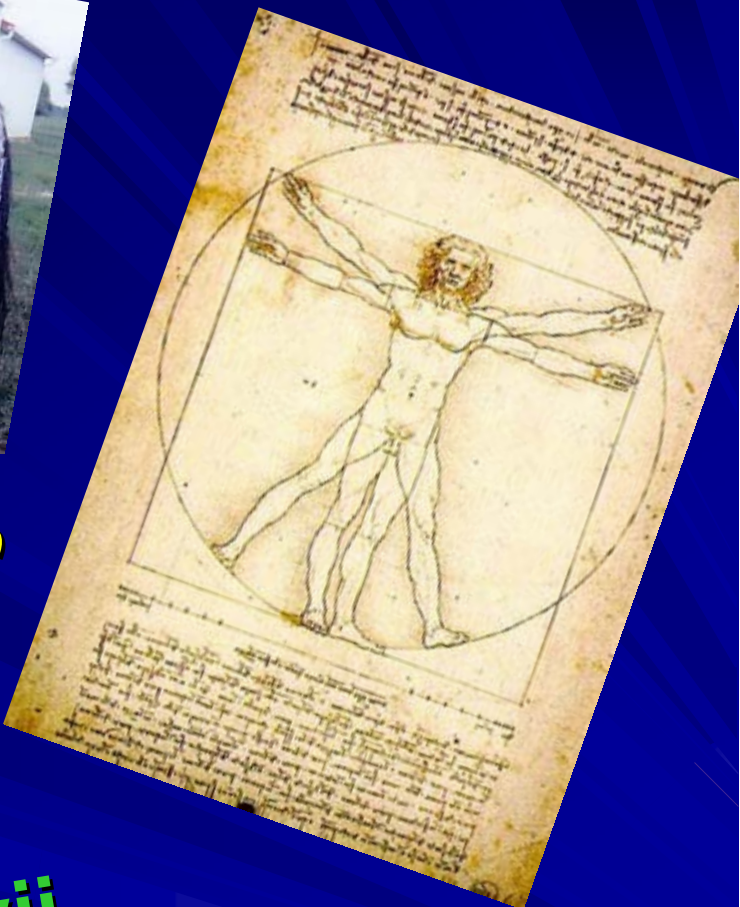

ANDRZEJ SYKUT 2002
www.azazel.9d.pl

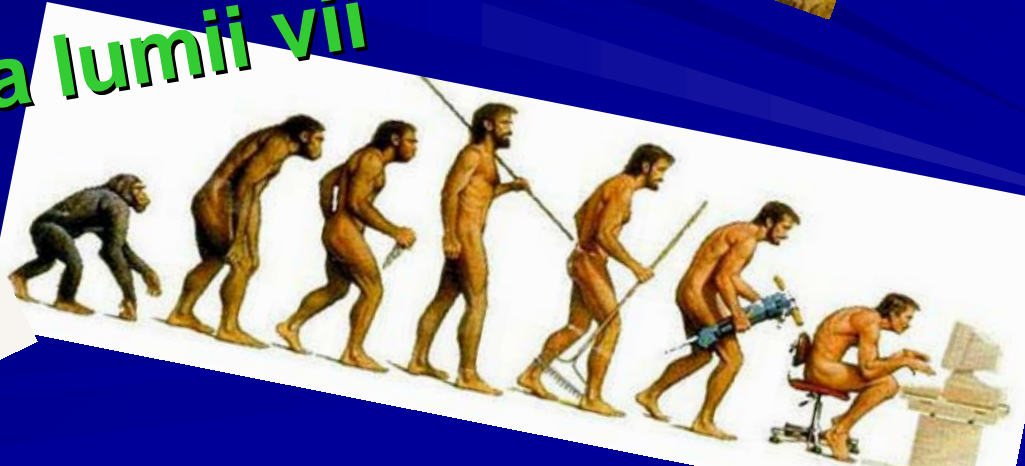

anatomie...

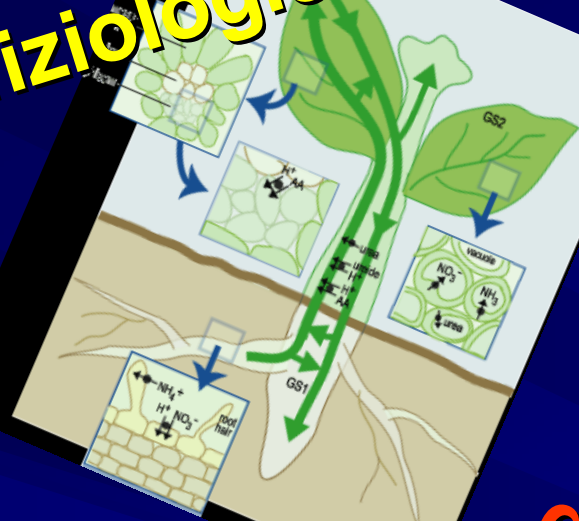

**...si fiziologie
animala**

evolutia lumii vii

fiziologie...

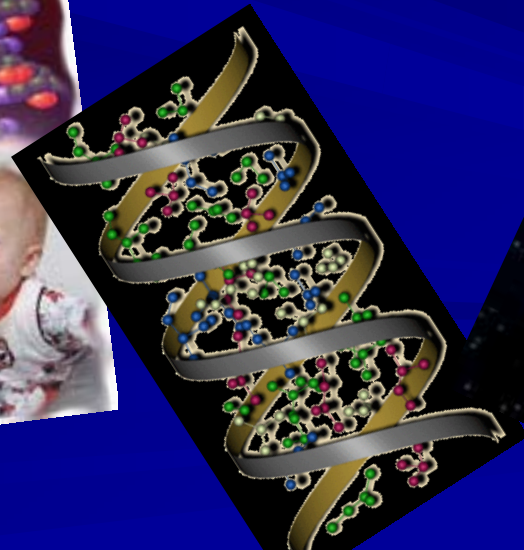

...si biotehnologie vegetala

genetica...

...si biologie celulara

Unde si cu ce...?

biologie vegetala la "sera" ...

biologie animala...

sau la microscop?...

In cautare de manuale...?

... incearca la biblioteca ...

...sau pe pagina noastra de web cu manuale ...

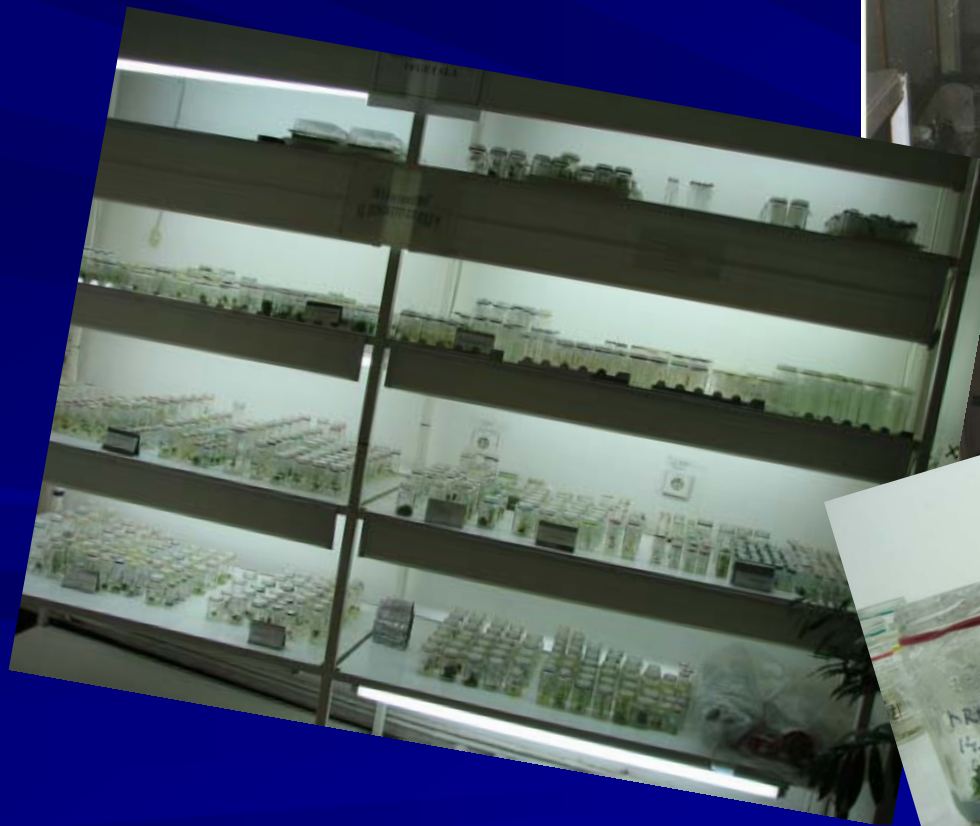

Two screenshots of a website. The top screenshot shows a page titled "Manual de lucrări practice în domeniul Biogeografiei". It lists authors Sas L. Covaciu-Marcov S.D. and Clora-Lucaci A.Si., and the year 2005. It also mentions "Practicum de Biogeografie" and "85p.". The bottom screenshot shows a page titled "Oradea" with text about didactic materials and a search bar.

Vrei sa faci mai mult?

Implica-te in cercetare!

**...poti lucra la
laborator ...**

...sau pe teren ...

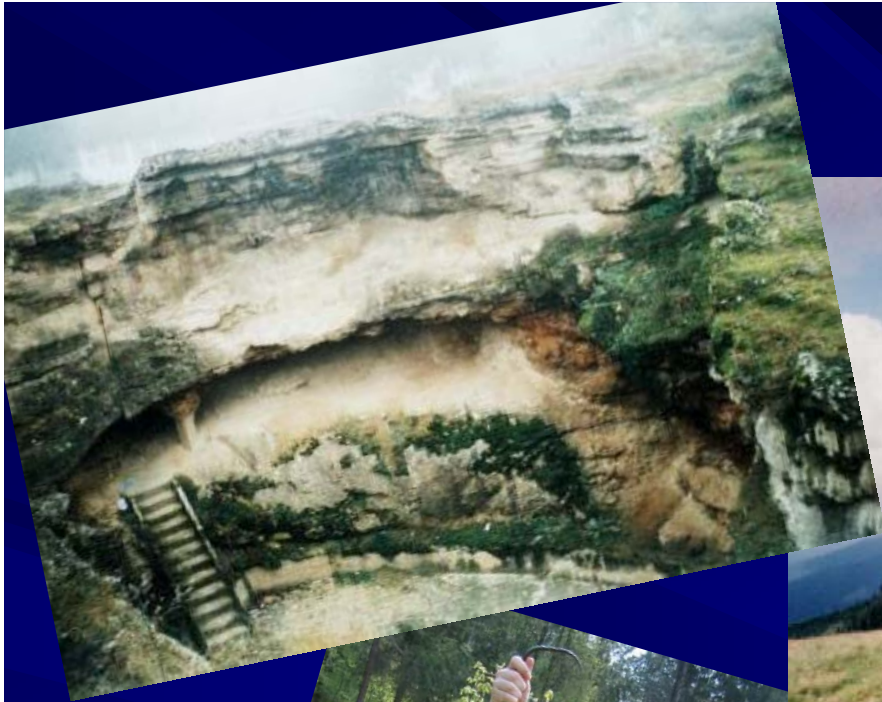

**...hai cu noi in
practica...**

**...prin toata
tara...**

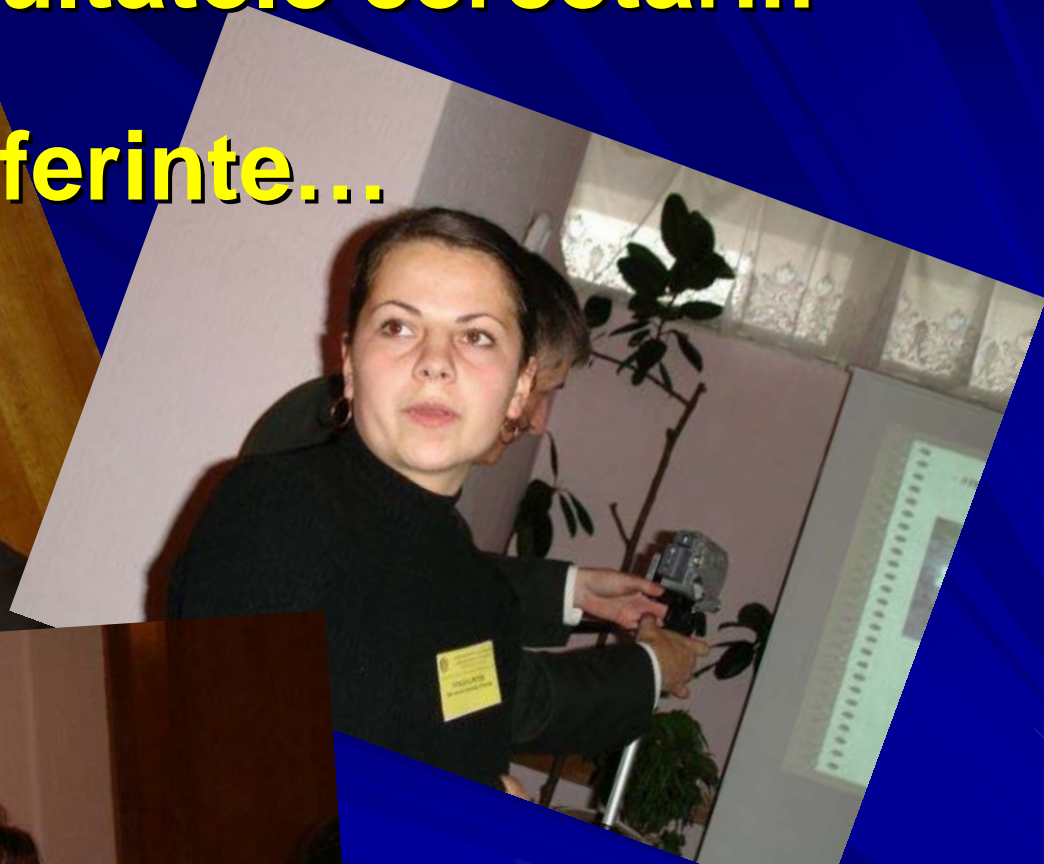

Implica-te in societatea noastra stiintifica alaturi de absolventii nostrii si studentii actuali!

The image displays three overlapping screenshots of the website <http://herp-or.uv.ro>. The top screenshot shows the homepage with a navigation menu (Home, Publications, N.W.J.Z., Photos, Maps, News) and a large blue logo for the Herpetological Club of Oradea (HCO). The middle screenshot shows a list of members, including Peter, Violeta-Ionela (22), Bogdan, Horia (21), and Groza, Marius (21). The bottom screenshot shows a list of publications, including a paper by Asztalos, J., Bogdan, H., Erdős, É.H., Peter, T.Z. (2005) titled "Food composition of two *Rana* species on a forest habitat (Lirade Plain, Romania)" and another by Baló, P., Brucki, P., Csorba-Baló, J., Csibáczkó, D., Sz. I. Olgyi, K. Pótyós, N.A., Gerics-Park, M. (2005) titled "Phylogeography of two European snail species discordance between mtDNA and morphology".
