INTUITIONISTIC FUZZY QUASI-INTERIOR IDEALS IN ORDERED Γ−SEMIGROUPS

SINEM TARSUSLU(YILMAZ)

ABSTRACT. In this study, the generalization of quasi-interior ideals on intuitionistic fuzzy ordered Γ−semigroups is introduced. Firstly, quasi-interior ideal on the ordered semigroup is defined and then, the defined concept has been carried over to intuitionistic fuzzy sets. Basic algebraic properties of quasi-interior ideals on intuitionistic fuzzy ordered Γ−semigroups are proven. The upper and lower t−level cuts of an intuitionistic fuzzy ordered Γ− quasi interior ideal are investigated. The relationship of this structure with intuitionistic fuzzy ordered Γ−-ideals is discussed.
